

## Position

Developer, IT – Houston, Texas

## Pay Structure

- Competitive salary
- Benefits after 90 days of employment
- Company provided medical and dental insurance
- At least two (2) weeks for vacation as well as customary holidays
- Bonuses and incentives awarded based on performance

*We are seeking an internal developer and designer who views development as a craft and takes great pride of their work in technical and business contributions. This is an opportunity to become a part of growing, fast-paced team environment.*

## Job Functions

- Build and improve high performance systems to support the current and future needs of the business.
- Work with the various departments to translate business needs into workable technology solutions.
- Expanding our front-end development of our web-based application platforms, automation, and other technology platforms as needed.
- Interact closely with the other business units as well as leadership to understand the business and provide technical and non-technical solutions to business problems.
- Help us serve our retail power customers more effectively by building new and improved technical solutions for them.
- Design user experiences that incorporate customer needs with the goals of the business.
- Conceptualize new ideas from the business units.
- Project management which may include management of many moving parts while meeting critical deadlines
- Team up with various departments to meet Management and the Company's business objectives.

## Required Skills

- 3+ years of front end development and UI design experience with 2+ years within complex projects and business solutions
- Fluent in: C#, ASP.Net Web Forms, ASP.Net MVC, T-SQL development, Entity Framework, JavaScript, CSS, HTML
- Sharp analytical abilities, problem solving, design skills and history of meeting deadlines.
- Excellent communication skills (you should be able to clearly articulate your design/coding decisions).
- Experience working in cross functional teams.
- Bachelor's degree or equivalent in related field.
- Strong time management and organizational skills.
- Retail power experience preferred.
